From the Director

Now that the days are shorter and the temperatures are lower, I wanted to share with you many of the ways you can enjoy library services from the comfort of your own home. Don’t get me wrong—we love it when you visit one of the three library locations. As a matter of fact, many patrons tell me this is the best library around because of our people. Our great staff are busy making sure our online offerings are user friendly as well.

If you haven’t checked out our website in a while please do. We debuted a new design at the end of January and have been adding new features ever since. In addition to access to our catalog and information about our hours and phone numbers, you can learn about upcoming programs, good books to read, community events and even job openings. For those of you on the go, we also have a mobile app available for iPhone/iPad and Android devices with many of the same features. You can find us on Twitter and Facebook for library updates, and Goodreads for adult and youth book recommendations and discussions. We are also on Instagram to share photos and YouTube to deliver entertaining and informative videos.

From our website you can download an electronic book, audiobook, or magazine, plus music and movies. In partnership with 15 libraries in the central Ohio area, our Digital Downloads collection now includes over 134,000 eBooks, audiobooks, movies and music. Last year UAPL patrons checked out over 38,000 items from this collection and I predict we will top 55,000 this year. New this year is our Zinio Magazine collection which includes 149 of the most popular titles in the US. You can find everything from Astronomy and Consumer Reports to Rolling Stone and Working Mother. Patrons have downloaded over 11,000 issues so far this year and a brand new feature includes the ability to download back issues of the titles we carry. And for your music, our Freegal collection of over 7 million songs from over 28,000 music labels includes both songs and music videos. Patrons can download up to two per week.

In addition to materials we also provide fun and useful activities on our website and other social media outlets. You can join an online book club on the website. Upload a photograph on Instagram to participate in our Monthly “Picture This” Photo contest; or watch tutorials and book reviews on YouTube. We’ll even answer your questions via text or email.

So stay warm this winter and remember we’re here for you even if you don’t leave the comfort of your own home.

Chris Taylor

From the Board President

In 2013 the board continued to work with library administration to maintain a balanced budget in a difficult economy. The challenge was, and is, to prioritize those expenditures that must be incurred now to maintain and improve existing facilities and services while, at the same time, postponing those expenditures that can wait another year or perhaps two. There is simply not enough revenue to do everything we would like to do now. Fortunately, we can report success largely due to a five-year budget planning process we worked through committees to bring about.

The $2.5 million Energy Conservation Measures (ECM) project is a good example of the value of long-term planning and saving. By careful planning and revenue management, we are able to significantly improve the HVAC system while avoiding the need to borrow or incur financing costs. More details can be found on page 4 of this publication.

We continue to look for opportunities to provide outstanding services as economically as possible. For example, we could participate in consortia to save on utilities, health care and other necessary expenditures. The Board and administration will continue to plan the library’s annual budget through this five-year forecast.

Library Partners with UA-KID on Collection
The UAPL is collaborating with local organization Upper Arlington-Kids Identified with Dyslexia (UA-KID) to provide a new collection of reading resources for children struggling with dyslexia. UA-KID has donated decodable children’s books and adult nonfiction books about the learning disability for the purpose of educating and spreading awareness. The collection will be housed in the Youth Services Department and is anticipated to circulate by the end of 2013.

UAPL Ranks in 99th Percentile Nationwide
Library Journal magazine has named the UAPL a four-star library in its annual Index of Public Library Service. We ranked 16th out of 1,367 libraries in our budget category, putting us in the 99th percentile of libraries nationwide.

Get Health Insurance Marketplace Info
Overwhelmed by the new Affordable Care Act? Our Reference Department can help you navigate the new Health Insurance Marketplace. Upcoming Board of Trustees Meetings
All meetings of the UAPL Board of Trustees are open to the public. The Board generally meets on the third Tuesday of each month at 5 p.m. in Meeting Room B of the Main Library. At press time, board meetings are scheduled for December 17, January 21 and February 18.
FAQs on Library’s HVAC and Lighting Upgrade

Q: What is the Energy Conservation Measures project?
A: The Energy Conservation Measures (ECM) project is a $2.5 million equipment replacement and energy efficiency project that replaces the heating, ventilation and air conditioning (HVAC) system at the Main Library. It also upgrades the lighting technology at the Lane Road Branch and reconfigures lighting in various places at the Main Library. The library has been planning and saving for three years to make this project fully funded.

Q: Why is the library doing this project now?
A: Our current heating and cooling equipment is 20 years past its expected useful life cycle. The lighting technology at Lane Road Branch is obsolete. By upgrading equipment with newer technology, we’ll use less energy and lower our energy bills.

Q: How much money will the library save on its energy bill?
A: We anticipate a savings of about $40,000 during the first year, or about a 25% reduction in consumption.

Q: How will patrons benefit?
A: Hot and cold spots in the buildings will be improved. Regulated temperatures will offer patrons a comfortable and enjoyable experience. Improved lighting will make browsing the collection easier and reduce computer glare.

Q: Where and when will patrons see the benefit?
A: Improved lighting will be most evident at the Lane Road Branch as well as in the Media, Reference and Youth Services Departments at the Main Library. Look for these improvements by Spring 2014. We anticipate improved temperature control with the new HVAC system by July 2014.

Q: Will library hours change or will access to some areas be limited?
A: The library will remain open with regular hours throughout the project. All public spaces will continue to be accessible throughout the project. Any heating or cooling disruptions will be localized and minimal in impact.

Q: How will the library keep patrons informed of progress?
A: For updates, visit our website, Facebook or Twitter pages.

Enter Our 2nd Annual Gingerbread Contest

You’re invited to show your sweet and creative side with our 2nd Annual Gingerbread Building Contest. Decorate a gingerbread house or other design, and bring it to the Main Library by 6 p.m. on Friday, December 6. Divisions include house/building or other; age categories are family or adult. Children ages 9-12 can build and enter a graham cracker house at our youth program on December 4. See page 5 for details.

Our celebrity judging panel will rate the structures based on originality/creativity; difficulty; precision and overall appearance. This year’s judges include WCMH-TV Meteorologist Ben Gelber; Jeni’s Splendid Ice Creams Founder Jeni Britton Bauer; and UA Mayor Don Leach. Impress them with your entry and you could win a blue ribbon and a gift card to a local merchant, courtesy of the Friends of the UAPL. Entries will be displayed and winners announced during our annual Holiday Happiness event on Saturday, December 7.

Complete rules and a pre-registration form are available at any UAPL location or online at gingerbread.ualibrary.org.

Youth Winter Reading Program Begins January 6

Young readers can beat the winter blues by joining our annual Winter Reading Club. This year’s theme is “Book BINGO!”

Those in preschool through grade 12 can participate by stopping by any UAPL location to pick up a BINGO card. On the card you’ll find 24 literacy and library activity spaces. When you’ve completed enough activities to form a BINGO (vertical, horizontal, or diagonal line across the card), return your card and drop it into the lucky box. When you’ve completed a card, take another one and play again!

Each player who completes and turns in their BINGO card will receive a bookmark, and each entry earns a chance to win some fun grand prizes. There will be drawings after the end of the Winter Reading Program for four different age categories: infants-PreK, grades K-2, grades 3-5, and grades 6-12. Thanks to our generous Friends of the UAPL for donating the prizes.

This biblio-BINGO runs from January 6 through February 15. Prizes will be drawn on February 17.

Join us for an informal discussion of Maisie Dobbs by Jacqueline Winspear. Maisie Dobbs isn’t just any young housemaid. Through her own natural intelligence—and the patronage of her benevolent employers—she works her way into college at Cambridge. When World War I breaks out, Maisie goes to the front as a nurse. It is there that she learns that coincidences are meaningful and the truth elusive. After the War, Maisie sets up on her own as a private investigator. But her very first assignment, seemingly an ordinary infidelity case, soon reveals a much deeper, darker web of secrets, which will force Maisie to revisit the horrors of the Great War and the love she left behind.

We conclude our study of Iranian cinema with the documentary *This is Not a Film*. In 2011, Jafar Panahi, the award-winning Iranian director, was under house arrest for a month while appealing his sentence — six years in prison and a 20-year ban from filmmaking. In defiance of the ban, he decided to document his days and share it with the rest of the world. The result is this clandestine documentary, shot partially on an iPhone and smuggled out of Iran in time for submission to Cannes Film Festival. Steve Hunt will introduce the film and will follow with a discussion after the movie. (2011, 75 min., NR)

**Friends of the UAPL Hold Winter Book Sale**

Whether you are dodging the cold by staying in or planning an escape to warmer places, no doubt you will need something great to read.

Once again Friends of the UAPL volunteers have been busy collecting, organizing and preparing thousands of books for the next big sale, which runs from Sunday, February 16 through Sunday, March 2 in the atrium of the Main Library, 2800 Tremont Road.

You’d be surprised at the wonderful things our generous patrons donate. Clearly book lovers themselves, they know their once-loved treasures are sure to find good homes. The library has been fortunate to receive everything from nearly new best sellers to rare antique collectible gems. And let’s not forget about the kids! It’s not unusual for Dr. Suess and Harry Potter to make appearances in our sales.

But perhaps the best kept secret is the prices. Friends’ book prices have remained unchanged for the past 20 years. Most hardbacks are $2.00 and paperbacks 50¢. Children’s and teen books range from only 25¢ to $1.00.

On February 16, the sale features large-sized, rare and special interest books that due to their uniqueness get priced separately, but are still incredible bargains for the serious or casual collector.

On the final day of the sale — March 2 from 1-3 p.m. — Friends members are able to purchase a brown grocery bag of books for just $5. Nonmember price for a bag is $10. We owe a special thank you to Huffman’s Market for genously donating the grocery bags.

 Started in 1977, the Friends of the UAPL is a volunteer organization that has been instrumental in helping the library acquire the things it needs to keep patrons happy. In fact, the Friends routinely raise over $90,000 annually! The Friends is a fun group of hard-working, book-loving folks who enjoy working with the library and patrons. If this sounds like you, they can always use more help. Check at the Friends or circulation desk in the library for more information. And don’t forget to follow them on Facebook! With all of the inside scoop on sales and activities, you’ll always be up to date.

Mark your calendars for our next sale February 16-March 2.
There is no denying it: winter is on its way. That means our antiquated cooling system has performed for the last time. Next summer the Main Library will have brand new equipment to keep patrons cool. By the same token, this winter will be the last time the old boilers will be used to warm us, thanks to the impending Energy Conservation Measures (ECM) project.

In my last article I shared details about our largest project: updating the Main Library’s HVAC system. This system is over 45 years old — well past its prime. After three years of planning and saving, in July the Library committed approximately $2.5 million for this project, which also includes some lighting upgrades at most of our buildings. You can learn more about the ECM project on page 4.

I’m pleased to share that the planning and installation has started. The project management on this undertaking is top notch. Ameresco’s project management team is very organized, knowledgeable and transparent. The Library and Ameresco, along with the subcontractors, will meet weekly over the next ten months to review work done and discuss the next set of work plans. These meetings keep the project moving forward, allow time for questions, and most importantly, keep all involved parties on the same page. There will be about four months of planning before the first HVAC installation starts. Thanks to prior planning by library administration and Ameresco, we anticipate that this project will be finished on time.

Look to our website at www.ualibrary.org and our Facebook page for more updates as work is completed.

**Update on Public Library Fund (PLF) Revenue**

In my summer 2013 article, I wrote about Governor Kasich’s proposed budget. He had recommended increasing the PLF by approximately 4% in the first year of the biennium, then about an additional 3% in the following year. This was exciting to hear, especially since the PLF had been cut and frozen in previous biennium budgets.

However, the state legislature made some adjustments to the biennium budget that ended up cutting income tax revenue, which will have a direct impact on the PLF. At press time, the true impact of these changes is still not known. What we do know is that public libraries will receive the same percent going forward as we did in state fiscal year 2013. Public libraries will receive about 1.66% of the State’s general revenue fund for the next biennium. Prior to the decline of the economy in 2009, libraries were getting 2.22% of the general revenue fund. To date, that’s a 25% reduction in state funding.

The chart below from the Ohio Library Council shows the GRF Tax Revenue and the PLF distribution since State FY 2008. To date, in every year with the exception of one the PLF saw a reduction of funding from the prior year.

With the official numbers now in, the news is not optimistic. The Upper Arlington Public Library will receive about $26,000 less in 2013, and we’ll receive about $60,000 less in 2014 than in 2013. Over the two-year period, the UAPL will have lost about $86,000 in state funding. This loss will have an impact on the monies available to fund much-needed projects in our capital plan.

**Shared Services**

The library continues to talk with both the City of Upper Arlington and the Upper Arlington Schools regarding shared services. Each entity has leadership that embraces the potential partnership between the city, schools and library as extremely important. The library continues to look at consortia for new opportunities such as purchasing electricity, health care and a library cataloging system. One thing we have learned is that there are a lot of consortia out there, and new ones are constantly being formed. Finding the right consortium takes planning and research in order to continue to provide savings for years to come.

As you can see, there’s a lot going on all throughout the library to ensure your experience is great and your investment is sound. Consider this analogy: your library is like a duck swimming on a pond. All is calm and running smoothly on the surface, while underneath the water the legs are constantly paddling along.

**Flight Behavior** by Barbara Kingsolver

*Flight Behavior* takes an interesting, thought-provoking look at love and loss through the lens of science and religion, education and superstition — all in a small-town Appalachian setting. Having grown up in a similar setting in Ohio, I could see some of my past self in protagonist Dellarobia, as well as pieces of people that I grew up with in the characters that surround her. However, her dreams and aspirations for herself and her children are universally relatable, regardless of your geographic background.

**Night Film** by Marisha Pessl

Imagine if Stephen King wrote *The DaVinci Code* about a reclusive filmmaker with a cult following. Add a dash of humor, some black magic, and a super creepy interactive app for your smartphone or tablet and you’re one step closer to Pessl’s *Night Film*, which is by no means for the faint of heart. Meet Scott McGrath, a once highly regarded journalist whose career took a nose dive during an exposé of cult filmmaker Stanislas Cordova. The sudden suicide of Cordova’s daughter plunges Scott back into Cordova’s world, along with a rag tag band of investigators, to determine what exactly happened to Ashley Cordova. A captivating and haunting read where everything is far from what it seems.

**The Gravity of Birds** by Tracie Guzman

I was completely captivated by the inhabitants of this book. This well-written novel is part adventure, part cliffhanger romance, part mystery and part comedy. The story centers on the search for two sisters who were the subjects of a painting in the early career of a now extremely famous artist. The search is triggered by the artist’s request to his biographer to find them and is made more difficult by the artist’s sudden stroke and the secrets he holds but cannot communicate. Guzman’s writing style is simple but at the same time poetic and evocative. She does not hide her sympathies for her characters and she made me want to meet them all.

— Nancy Roth, Administration

**Mr. Wuffles** by David Wiesner

Mr. Wuffles the cat resists all efforts as his human tries to tempt him with new playthings. But he is fascinated with a round metal toy-like object that turns out to be a miniature alien space craft filled with extraterrestrials. As Mr. Wuffles bats around this new “toy,” the spaceship is damaged and the aliens must evade Mr. Wuffles, repair their craft and escape. Gorgeous artwork reveals multiple levels of storytelling along with a cryptic language that curious kids will want to decode. An intriguing, smart and rich story for older children.

**Bogart and Vinnie: A Completely Made-Up Story of True Friendship** by Audrey Vernick

Poor Bogart. He just wants to be left alone to enjoy his quiet life as the only rhinoceros in the nature preserve. But when Vinnie, an extremely cheerful fellow, wanders away from his family, Bogart’s life changes forever. Silly fun captures a happy dog’s internal exuberance. The illustrations elevate the text to a whole new level.

**Tales From Development Hell: The Greatest Movies Never Made?** by David Hughes

Covering films that never made it into production as well as those that did (though radically altered from their original screenplays), this is an interesting read about the process of getting a movie made. Readers will learn why one screenplay can have so many credited authors, how a star’s ego can influence a script, and why the last Indiana Jones movie was so lousy.

— David Hertz, Information Technology

**The Girl You Left Behind** by JoJo Moyes

This book is told in alternating narratives by a woman living in a German-occupied village during World War I era France and a woman living in modern London. The stories are linked by a painting of the French woman that ends up in the possession of the English woman nearly a hundred years later. This novel blends historical mystery with a modern day love story that is engaging and well paced. I didn’t want to put it down until I was finished.

**UAPL Showcases Local Music**

The Main Library has started building a new special collection that is sure to please fans of the local music scene. Our Media Services Department is home to a small selection of CDs by Ohio musicians representing a variety of genres from rock to classical to jazz. While this music has always been available classified by specific genres, this marks the first time it has been housed together under a common call number, making it easier for those interested in all kinds of local artists to discover.

Our Media Services staff has compiled a list of local artists’ work to add to the collection, but we’re always looking for other possible additions. If you’re an Ohio-based musician who is interested in having your work circulate at the Upper Arlington Public Library, please contact Media Services Manager Shahin Shoar at sshoar@ualibrary.org for more details.

To coincide with our local CD collection, we’re introducing a new program series for adults and teens: “Live at the Library.” This series showcases local talent representing eclectic musical tastes. We kick off with five consecutive Wednesday performances held at 7 p.m. in the Main Library’s Friends Theater.

**Library Makes Changes to Circulation Policies**

The UAPL’s Collection Committee met throughout 2013 to review our collection policies and develop our collection philosophy. We also evaluated our item limits and loan periods as compared to our fellow Franklin County library systems. After months of work, the committee has changed three policies that go into effect on January 1, 2014.

The first change reduces the number of books, magazines and audiobooks that can be checked out to one card at any given time. This limit will decrease from 100 items to 50. This limit puts us in line with other area libraries and, as we learned from an internal review of checkouts, already meets the bulk of our patron’s needs.

The second change affects several loan periods. The fiction DVD loan period will increase from 5 days to 7 days. The nonfiction DVD loan period will decrease from 14 days to 7 days. This makes it convenient for patrons who visit the library once each week and creates less confusion by having the same loan period for all DVDs. The loan period for music CDs will decrease from 28 days to 14 days. Items can still be renewed up to five times if there are no requests for them.

The third change is with the number of copies of books we buy in relation to the number of holds per title. We currently purchase one copy of the book for every five holds. Beginning in January, we will purchase one copy for every three holds. We had decreased this ratio in 2009 due to budget cuts and are now in a position to return to the 3 to 1 ratio. This will increase the speed that holds get filled.

**Trustee Bill Shkurti Wins Ohio Library Council Award**

At its annual convention in October, the Ohio Library Council named UAPL Board of Trustees member William J. Shkurti as the recipient of the 2013 Trustee Award of Achievement.

This honor recognizes an individual library board member or entire board of trustees who demonstrate distinguished service and innovative leadership within the community or across Ohio.

Bill Shkurti has greatly impacted and strengthened the relationship between the library board and library administration. During a critical time in the history of the UAPL, Shkurti demonstrated leadership as a member of the Finance Committee in developing a five-year budget plan. As part of the budget planning process, Shkurti assisted library administration in carefully analyzing revenues and projecting costs.

He also assisted in the passage of a library levy in 2012. During the levy campaign, Shkurti spoke numerous times with city council members, community leaders, organizations, and library staff to build an understanding of the library’s funding and its long-term financial picture. In addition to his responsibilities as a UAPL Trustee, Shkurti has contributed to the larger public library community as a presenter at OLC’s New Director’s Workshop Series and New Trustee Workshops.
